Safety Data Sheet (SDS)
OSHA HazCom Standard 29 CFR 1910.1200(g), Rev. 2012 and GHS Rev 03

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product form: Mixture
Trade name: Duratherm XLT-50
Product code: Duratherm XLT-50
Recommended application: Heat Transfer Fluid

1.2 Relevant identified uses of the substance or mixture and uses advised against
Relevant identified uses of the substance or mixture:
Heat Transfer Fluid
Uses advised against:
No information available at present

1.3 Details of the supplier of the safety data sheet
Duratherm
P.O Box 563, Lewiston, NY, 14092
Telephone: 1-905-984-6677
Qualified person's e-mail address: info@durathermfluids.com

1.4 Emergency telephone number:
Tel.: 1-905-984-6677

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Combustible liquids 4 – H227, Asp. Haz 1 – H304, Skin Irrit 2 – H315, Skin Sens 1 – H317, Very toxic to aquatic life: H400:
Aqu. Chron. 1: H410

2.2 Label elements
Labeling according to Regulation (EC) No 1272/2008 [CLP/GHS]
Product Identifier:
Hazard components for labeling: Terpene – CAS# 5989-27-5
Hazard pictograms: GHS07, GHS08, GHS09

Signal word: Warning

Hazard statements
H227 Combustible liquid
H304 May be fatal if swallowed and enters airways
H315 Causes skin irritation
H317 May cause an allergic skin reaction
H410 Very toxic to aquatic life with long lasting effects

Precautionary Statements
P210 Keep away from heat, sparks, open flames, and hot surfaces. No smoking.
P273 Avoid release to the environment
P280 Wear protective gloves
P301/310/331 IF SWALLOWED. Immediately call a POISON CONTROL CENTRE. Do not induce vomiting
P302/P352 IF ON SKIN: Wash with plenty of water.
P332/P313 If eye irritation persists seek medical attention.
P501 Dispose of contents and their containers in accordance with regional, national and international regulations.

Other hazards
Other Hazards: None known

### SECTION 3: Composition/information on ingredients

#### 3.1 Substance
Not applicable

#### 3.2 Mixture
Chemical Characterization: Mixture
Classification according to GHS: GHS07, GHS08, GHS09
Dangerous Components: Terpene CAS#: 5989-27-5

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

**Following Inhalation:**
Supply person with fresh air and consult doctor according to symptoms.

**Following Skin contact:**
Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

**Following Eye contact:**
Remove contact lenses and wash thoroughly for several minutes using copious amounts of water. Seek medical help if necessary.

**Following Ingestion:**
Rinse the mouth thoroughly with water. Do not induce vomiting. Consult doctor immediately.

**Self- Protection of the First Aider:**
When giving first aid follow standard first aid protocol.

#### 4.2 Most important symptoms and effects, both acute and delayed

**Symptoms/injuries after inhalation**
May be harmful by inhalation if exposure to vapor, mists or fumes resulting from thermal decomposition of the product

**Symptoms/injuries after skin contact**
Unlikely to cause harm to skin on brief or occasional contact, but prolonged or repeated exposure may lead to dermatitis.

**Symptoms/injuries after eye contact**
Unlikely to cause more than transient stinking or redness if accidental eye contact occurs

**Symptoms/injuries after ingestion**
Unlikely to cause harm if accidently swallowed in small doses, though larger quantities may cause nausea and diarrhea

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing Media

Suitable extinguishing media: Water jet spray/foam/CO2/dry extinguisher
5.2 Special hazards arising from the substance or mixture
In case of fire the following can develop: Oxides of carbon, toxic gases

5.3 Advice for firefighters
In case of fire and/or explosion do not breathe fume use protective respirator with independent air supply. According to the size of the fire, use full protection if necessary. Cool container at risk with water. Dispose of contaminated extinction water according to official regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Non-emergency personnel:
Ensure sufficient supply of air
Avoid contact with eyes or skin
Emergency responders
Wear safety glasses, goggles or face shield

6.2 Environmental precautions:
If leakage occurs, dam spillage and resolve leaks as soon as possible. Prevent fluid from entering drainage systems. If fluid accidentally enters drainage systems alert authorities.

6.3 Methods and material for containment and cleaning up
For Containment: Contain spill by berm usage and blocking flow with absorbent material.
For clean up: Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth) and dispose of according to Section 13.

6.4 Reference to other sections
See section 7 for information on safe handling, see Section 8 for information on personal protection equipment, see Section 13 for disposal information

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Protective Measures:
Precautions for safe handling: Avoid contact with eyes or skin. Do not breathe vapors or mists
Information about protection against explosions or fires: Take measure to prevent the buildup of electrostatic discharge
Aerosol and dust generation previsions: Not applicable
Environmental precautions: Prevent from entering drainage systems

Advice on general occupational hygiene
General hygiene measures for the handling of chemicals are applicable
Wash hands before breaks and at end of work
Keep away from food, drink and animal feed
Remove contaminated clothing and protective equipment before entering areas in which food is consumed

7.2 Conditions for safe storage, including any incompatibilities
Technical measures and storage conditions:
Packaging Materials: Store product closed and only in original packaging
Requirements for storage rooms and vessels: Store in a well-ventilated, cool and dry place

Hints on storage assembly
Storage Class: No data available
Materials to avoid: Do not store in plastic containers for extended periods.

7.3 Specific end use(s)
No information available at present.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters
Occupational exposure limits: D-Limonene 20 ppm ACGIH; 50 ppm OSHA

8.2 Exposure controls:
8.2.1 Appropriate engineering controls: Contain with oil absorbing material (oil dry). Remove oil absorbing material and dispose lawfully

8.2.2 Personal protective equipment:
Eye protection: Suitable eye protection
Eye protection necessary where liquid could be splashed or sprayed

Skin Protection:
Hand protection: In case of repeated or prolonged contact wear gloves and use moisturizing skin cream

Body Protection:
PVC, neoprene, or nitrite gloves

Respiratory protection: Normally not required in areas with adequate ventilation. In areas with poor ventilation or in the case of likely misting use appropriate respiratory equipment

Thermal Hazards: No thermal hazards

8.2.3 Environmental exposure controls: See section 6
Consumer exposure controls: PVC gloves. Neoprene or nitrile rubber gloves

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties
Physical state: Liquid
Color: Light yellow, clear
Odor: Characteristic
Odor threshold: Not determined
pH-value: Not determined
Melting point/freezing point: Not determined
Initial boiling point and boiling range: Not determined
Flash Point ASTM D92 (COC): >150°F (>84°C)
Evaporation Rate: NA
Flammability (solid, gas) NA
Lower explosive limit: Not determined
Upper explosive limit: Not determined
Density @ 20°C: 0.85-0.87 g/ml
Bulk density: NA
Solubility(ies): Not determined
Water solubility: Insoluble
Partition coefficient (n-octanol/water) Not determined
Auto-ignition temperature: Not determined
Decomposition temperature: Not determined
Viscosity: 1.5 cSt @ 40°C
Explosive properties NA
Oxidizing properties: Not determined

9.2 Other information
Miscibility: Not determined
Fat solubility / solvent: Not determined
Conductivity: Not determined
SECTION 10: Stability and reactivity

10.1 Reactivity: Stable under normal conditions
10.2 Chemical Stability: Stable under normal conditions
10.3 Possibility of hazardous reactions: See section 2
10.4 Conditions to avoid: See section 7. Avoid contact with strong oxidizing agents
10.5 Incompatible materials: Strong oxidizing agents, acids
10.6 Hazardous decomposition products: See section 5.2 no decomposition when used as directed

SECTION 11: Toxicological information

11.1 Information on toxicological effects

11.1.1 Substances: Not applicable
11.1.2 Mixtures:

Acute oral toxicity: D-Limonene: LD50 rat: 4,400 mg/kg
Acute inhalation toxicity: D-Limonene: LD50 rat: No available data
Acute dermal toxicity: D-Limonene: LD50 rabbit: > 5,000 mg/kg
Irritation: Not classified – Unlikely to cause harm to skin with brief contact, long term contact may cause dermatitis
Corrosivity: Not classified
Eye damage/irritation Liquid in the eyes can be irritating, causing tearing and redness.
Sensitization: May cause slight redness. Prolonged or repeated contact may cause drying of the skin.
Repeated dose toxicity: Not classified
Mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
Other information: No further information available

SECTION 12: Ecological information

SECTION 13: Disposal considerations
13.1 Waste treatment methods

Product/Packaging disposal:
Soaked polluted cloths, paper or other organic materials represent a fire hazard and should be controlled, collected and disposed of.

Waste Codes/ waste designations according to EWC / AVV:
Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261.3. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification.

Waste treatment options: See section 6.2

Other disposal recommendations:
For contaminated packing material
Pay attention to local and national official regulations
Empty container completely
Uncontaminated packaging can be recycled
Dispose of packaging that cannot be cleaned in the same manner as the substance
Do not perforate, cut up or weld un-cleaned container

SECTION 14: Transport information

14.1 UN number
US DOT/ADR/RID/AND(R)/IATA/ICAO: UN3082

14.2 UN proper shipping name:
DOT, ADR, ADN, IMDG, IATA: Environmentally hazardous substance, liquid

14.3 Transport hazard class(es)
DOT, ADR, ADN, IMDG, IATA: 9

Hazard label(s):

14.4 Packing Group
DOT, ADR, IMDG, IATA: III

14.5 Environmental hazards
Marine Pollutant: Yes

14.6 Special precautions for user:
EMS Number: F-A, S-F

14.7 Transport in bulk according to Annex II of MARPOL and IB Code UN Model Regulation

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
15.1.1 EU regulations
SARA Hazards: No SARA Hazards
TSCA (Toxic Substances Control Act): Terpene – CAS# 5989-27-5
All chemical substances in this mixture are included on or are exempted from listing on the TSCA Inventory for Chemical Substances

Proposition 65
Based on available information this product does not contain any components or chemicals currently known to the State of
California to cause cancer, birth defects or reproductive harm at levels which would be subject to Proposition 65
